Same Club

Note:

The above chart is to be used as a guide so that clubs will be fully aware when a change strip may be requested by the appointed referee.

If a referee does not request a change that is fine but when the same two teams meet again there is to be no discussion or argument if that referee does request a change of strip. In all cases the decision of the referee appointed to the game will be final and duly accepted as, if not, the referee reserves the right to abandon the game.

If the appointed referee deems that the alternative change strip colours still clash with the away team's strip, then that referee reserves the right to seek a further change of strip by the home team.

Any problems encountered by referees will be reported to the E.D.R.A. management committee who will then follow up the matter with E. & D.J.S.A. and the club concerned to ensure that the above is fully understood and no further problems are encountered.
